

In my future I plan to...

Kate is a 5th grade student in Mrs. Schultz's class at Mt. Carmel School. Her willingness to learn is undeniable. Kate continues to exceed expectations and go above and beyond in assignments. Not only is Kate remarkable in her learning but she is well respected among her classmates. Kate is always willing to help a classmate and encourage someone who may be struggling.

In the future I plan to go to college to become a teacher. The college I may go to is IU East in Richmond or somewhere near my family. The reason I want to become a teacher is because throughout the years I have seen teachers do their work such as helping kids, and I always thought it would be interesting and fun to be in the classroom most of the day. I like helping others, teaching, and learning new things. I know that there are many places to teach in the world, but I would love to teach where I learned. I think that I would feel very comfortable being in a place that I think of as an amazing school.
