

## In my future I plan to...

Go to Law School and one day run for public office.

My future plans include continuing my passion for public speaking and leadership and dedicating my future to serving others. I will major in law and public policy in order to build relationships, gain experience, and spend a semester in Washington, D.C. working with legislative committees. Additionally, I plan to minor in marketing boosting my understanding of selling not just a product but an idea. I want to continue on to law school, and eventually become a partner in a law firm. I firmly believe that the community around me has been a crucial part of molding me into the woman I am today, which is why I plan to return home to give back to the community that built me. Once establishing myself, I plan to one day run for public office as a State Senator and draft policy.
