

I Excel in Art

Hannah Ison, Grade 8
Brookville Middle School

I love Art because I don't have anything to do or I need to focus, I can use my brain to concentrate on what I am drawing. I like to create designs with pencil or pen. Some people ask me to draw designs for them. I want to use my artistic and creative abilities when I get older in my job. This year, some of my designs are being used on the birthday cards that BMS students get on their birthdays.
