

I EXCEL IN Lighting/Sound Tech

Brett Baker
MCS grade 4

I have been interested in lighting/sound tech since I was 4yr old. I enjoy setting up all the sound boards, lights, microphones and just running the show. I have been in charge of many plays here at school and also run all the sound for the kids group at my church. I was asked to run a meeting here at school where I had to set up during school then stay late for the meeting. I just recently DJ my first dance with St. John's school which was a lot of fun. I have a lot of equipment at my home to practice with. I really like setting everything up to make a club scene in my basement. I hope to be a DJ someday!
