

I Excel in School & Ice Skating

Emma Tolhurst, Grade 2
Mt Carmel School

Emma Tolhurst is a second grade student at Mt Carmel School. She is a star student in so many ways! Emma enjoys all subjects and works hard to get the best grades that she can. She enjoys math the most because she can add, subtract, and is learning to multiply. She is especially great at problem solving. Emma also loves to be creative and colorful in art class.

Outside of school, Emma enjoys many sports and hobbies such as tennis, golfing, and aviation. Most of all Emma loves when she is able to practice her ice skating. She is learning ballerina jumps, spins, and crossovers. To prepare for skating she must be a good listener and practice yoga and lift some small weights. The best part is the fun performances where she gets to be the star of the show and demonstrate her hard work. When she grows up she wants to be a professional ice skater!
