

I Excel in Memes

Kasey Duncan, Grade 11
Franklin County High School

A meme is a pretty abstract thing. For those of you who don't know, a meme is any sort of post on the internet that makes people smile. Basically, a very popular and ironic way to spread positivity. Memes are a lighthearted way not to escape reality, but put a humorous or whimsical spin on life's problems. The reason I excel in memes is through sending them and sharing that positivity with others.
