March 30, 2020

Dear Parents and Students:

In response to Franklin County's Level Orange Travel Advisory, we will be mailing paper learning packets home for all students in grades PreK-2 and for students in grades 3-12 who have indicated that they do not have Internet access at home. Paper learning packets will NO LONGER be available at the school. **Franklin County Middle School and Franklin County High School students that need a paper packet need to call their school's office and leave a message indicating that they need paper packets mailed to them.** Also, please remember that free Internet access is available in our school parking lots where assignments can be downloaded from the car.

Packets will be mailed to students each Tuesday. We ask that you hold on to completed learning packets. Completed assignments will be collected at later date.

All eLearning activities shall continue to follow the weekly Tuesday, Wednesday, Thursday schedule through the end of April.

Again, I appreciate your flexibility and support as we try to navigate these challenging times.

Stay safe,

Dr. Debbie Howell

We exist so children can excel.
